

Radio Button

Radio buttons allow users to select one option from a set.

Radio List Tile

Design **Implementation**

Radio Button

```
RadioListTile<bool>(  
  onChanged:(bool?  
value) { },  
  value: false,  
  title: const  
Text('Radio Title'),  
)
```

Radio Button Multiple

Design **Implementation**

Radio Button

Multiple

```
Column(  
  children: [  
    Radio<int>(  
      value: 0,  
  
      groupValue:  
_groupValue,  
  
      onChanged: (int?  
value) {},  
    ),  
    Radio<int>(  
      value: 1,  
  
      groupValue:  
_groupValue,  
  
      onChanged: (int?  
value) {},  
    ),  
  ],  
)
```

Info

`groupValue` The currently selected value for a group of radio buttons.

To change the whole Button Theme, please open the `core/themes/app_theme.dart` . Here's how to change the Widget Radio Button theme:

```
radioTheme: RadioThemeData(  
  fillColor: MaterialStateProperty.resolveWith<Color>((Set<MaterialState> states) {  
    if (states.contains(MaterialState.selected)) {  
      return AppColors.secondary;  
    } else if (states.contains(MaterialState.hovered)) {  
      return AppColors.splash;  
    }  
    return AppColors.fillPrimary;  
  }  
),  
)
```
