

Snackbars

Snackbars provide brief messages about app processes at the bottom of the screen.

Design **Implementation**

Snackbar Mobile

[Snackbar mobile](#)

Snackbar Website

[Snackbar website](#)

```
Fluttertoast.showToast(  
  msg: 'This item  
already exist',  
  toastLength:  
  Toast.LENGTH_SHORT,  
);
```

 **To cancel all the toasts call**

```
Fluttertoast.cancel();
```

Support Packages

 **Info**

The Menorah library uses the `fluttertoast` package to call `snackbar`. For more can be learned in [Pub Dev](#).
